To Whom it may concern...

I am writing this letter on behalf of Ginny Kreyer, a parishioner at Roncalli Newman parish who is in danger of losing her home at the end of June. For all the years she has lived there, she was under the assumption that Rivercrest owned the land her double wide home was on since that is to whom she paid rent every month. Now she is told that the city actually owns the land and they want it back so she (and her neighbors) have been told that they have to move --double wide mobile home and all--by the end of June.

She is asking you, and I support her request, that you support Resolution 24-0701 to prevent this from happening. I rode my bike past there today and she has beautiful flower gardens, a raised vegetable garden, a deck on her house, and a garage all in a lovely setting next to a wooded area and backwater stream. I believe she said she has been living there for 18 years and can afford the rent there but cannot afford to move her home and rebuild the deck, etc. In another location—if she could even find one.

Please support that Resolution and allow her to continue to live in the home and area she loves.

Sincerely,

Carol A. Knox
