

4/1/2026

Dear La Crosse Park and Rec Board;

The Bluffside Neighborhood Association supports the purchase and placement of lights on the Bluffview Park Basketball court. The lights would be activated during the appropriate months by motion and shut off by 10 p.m. Neighbors adjacent to the park on Jackson St. between 28th St and Cliffwood, who would be most likely affected, have been given a flyer on their screen door and asked to contact me with concerns.

The notification was also sent to all email addresses we have for our NA and posted on the Bluffside Nextdoor website. No one made contact with me expressing concerns with the placement of lights on the Basketball court.

We will assist Zane Schlegel and his friends in raising the dollars needed to support this project. Poelling Electric Inc. has submitted a bid of \$11,000 to complete the project. The Budget proposal is included with this email.

Any questions or concerns can be sent to Zane or me.

Thank You for Your Consideration.
