

Hello!!

I understand there is a park board meeting coming up. I'm writing a quick note to advocate for birch trail to be opened up for biking! It's a great trail for younger and new bikers to safely practice the sport and trail etiquette before transitioning to more technical trails in nearby systems.

As a mother of 3 I love opportunities to get my kids out on the trails. Getting youth involved and interested in respectful use of our outdoor recreation spaces is a critical step in long-term maintenance and preservation; these are our future stewards! 😊

Please pass along my words of support for opening birch trail to bikers.

Thank you!  
Meg Jelen
