

Good Morning,

I would like to provide feedback about the proposal to change Birch Trail from a hike only to a multi-use trail to include biking. I am on the board of Friends of the Blufflands and spend a lot of time on Zoerb Prairie doing restoration work. While there in May and June and near the Birch Trail, I asked 8 hikers what they thought of the proposed change. Seven were opposed, one said it did not matter one way or the other.

I am also opposed to the change.

Jon Rigden
