Streets would like to purchase a plow for (2) Trucks
Str-TFL-49 and Str-TFL -09

These trucks will be used on plowing routes to help make the plowing more efficient for certain areas, and this would serve as a back up to any of our single axles if needed.

We have every piece planned to be out plowing - so if a breakdown occurs we do not have a backup. These trucks - not the same size can serve to help us cover for broken down plow trucks.

We solicited 3 quotes for this purchase.
We received 2 quotes - with one declining to quote.

We would like to purchase the plow from Michaels Truck Equipment which was the low bid.

Purchase price \$9,966.00 each

Total cost \$19,932.00

Purchase will be from the Street Department Sales Account.

Thank you,

Ryan Rasmussen
