- Telephone Inquiries from developer/investors
- Ongoing communications with new investor on RFEI land opportunities
- Updating Smartsheet database on construction schedules
- Coordination on landscape maintenance contract
- Presentation on Economic Development and RPD to the Chamber Leadership Group August 20
- University Chancellor Tour and program coordination

Project Challenges and Opportunities

Analysis of challenges and opportunities narrative

Challenges:

1. Review with City Engineering/Public Works the implications of infrastructure ownership by the Redevelopment Authority short and long term
2. Unclassified excavation (contaminated soil) is always a potential cost challenge. Soil disposal costs \$75/cy at the La Crosse County Landfill. (Depending on concentration) and organics affecting the costs of footings/piers.
3. Anticipate the investment in the relocation and costs of the large electrical distribution line along the Black River frontage.
4. TIF application review and needs relative to city policy
5. Timing of projects given external factors such as financial, agency/environmental and supply chain issues including national economic policy impacts
6. Long Term Landscape Maintenance-Contract Complete
7. Construction inflation, tariff impacts

Opportunities:

8. Continue to market the development opportunities -RFEI issued and developer communications underway
9. Costs of parks/recreation improvements should be coordinated with grant application opportunities
10. La Crosse Community Foundation Social Investment Interests
11. Potential for renter equity programs
12. Ground lease opportunities for RDA (to be discussed on case by case basis)
13. Public Private partnerships for Public Parking and/or programmable interior/exterior community spaces
14. Marina partners/leases
15. Discuss maintenance strategies to keep RPD looking good and possible future NID transition-Possible tie to the marina/slips maintenance program

Future/existing potential funding solutions and strategies. See

Smartsheet Funding Resource. Note: As the project is further evaluated, specific funding sources from this resource will be identified and pursued at the discretion of the RDA. Parks and Recreation improvements are a great candidate for third party funding.

Ongoing investor/developer contacts/communications

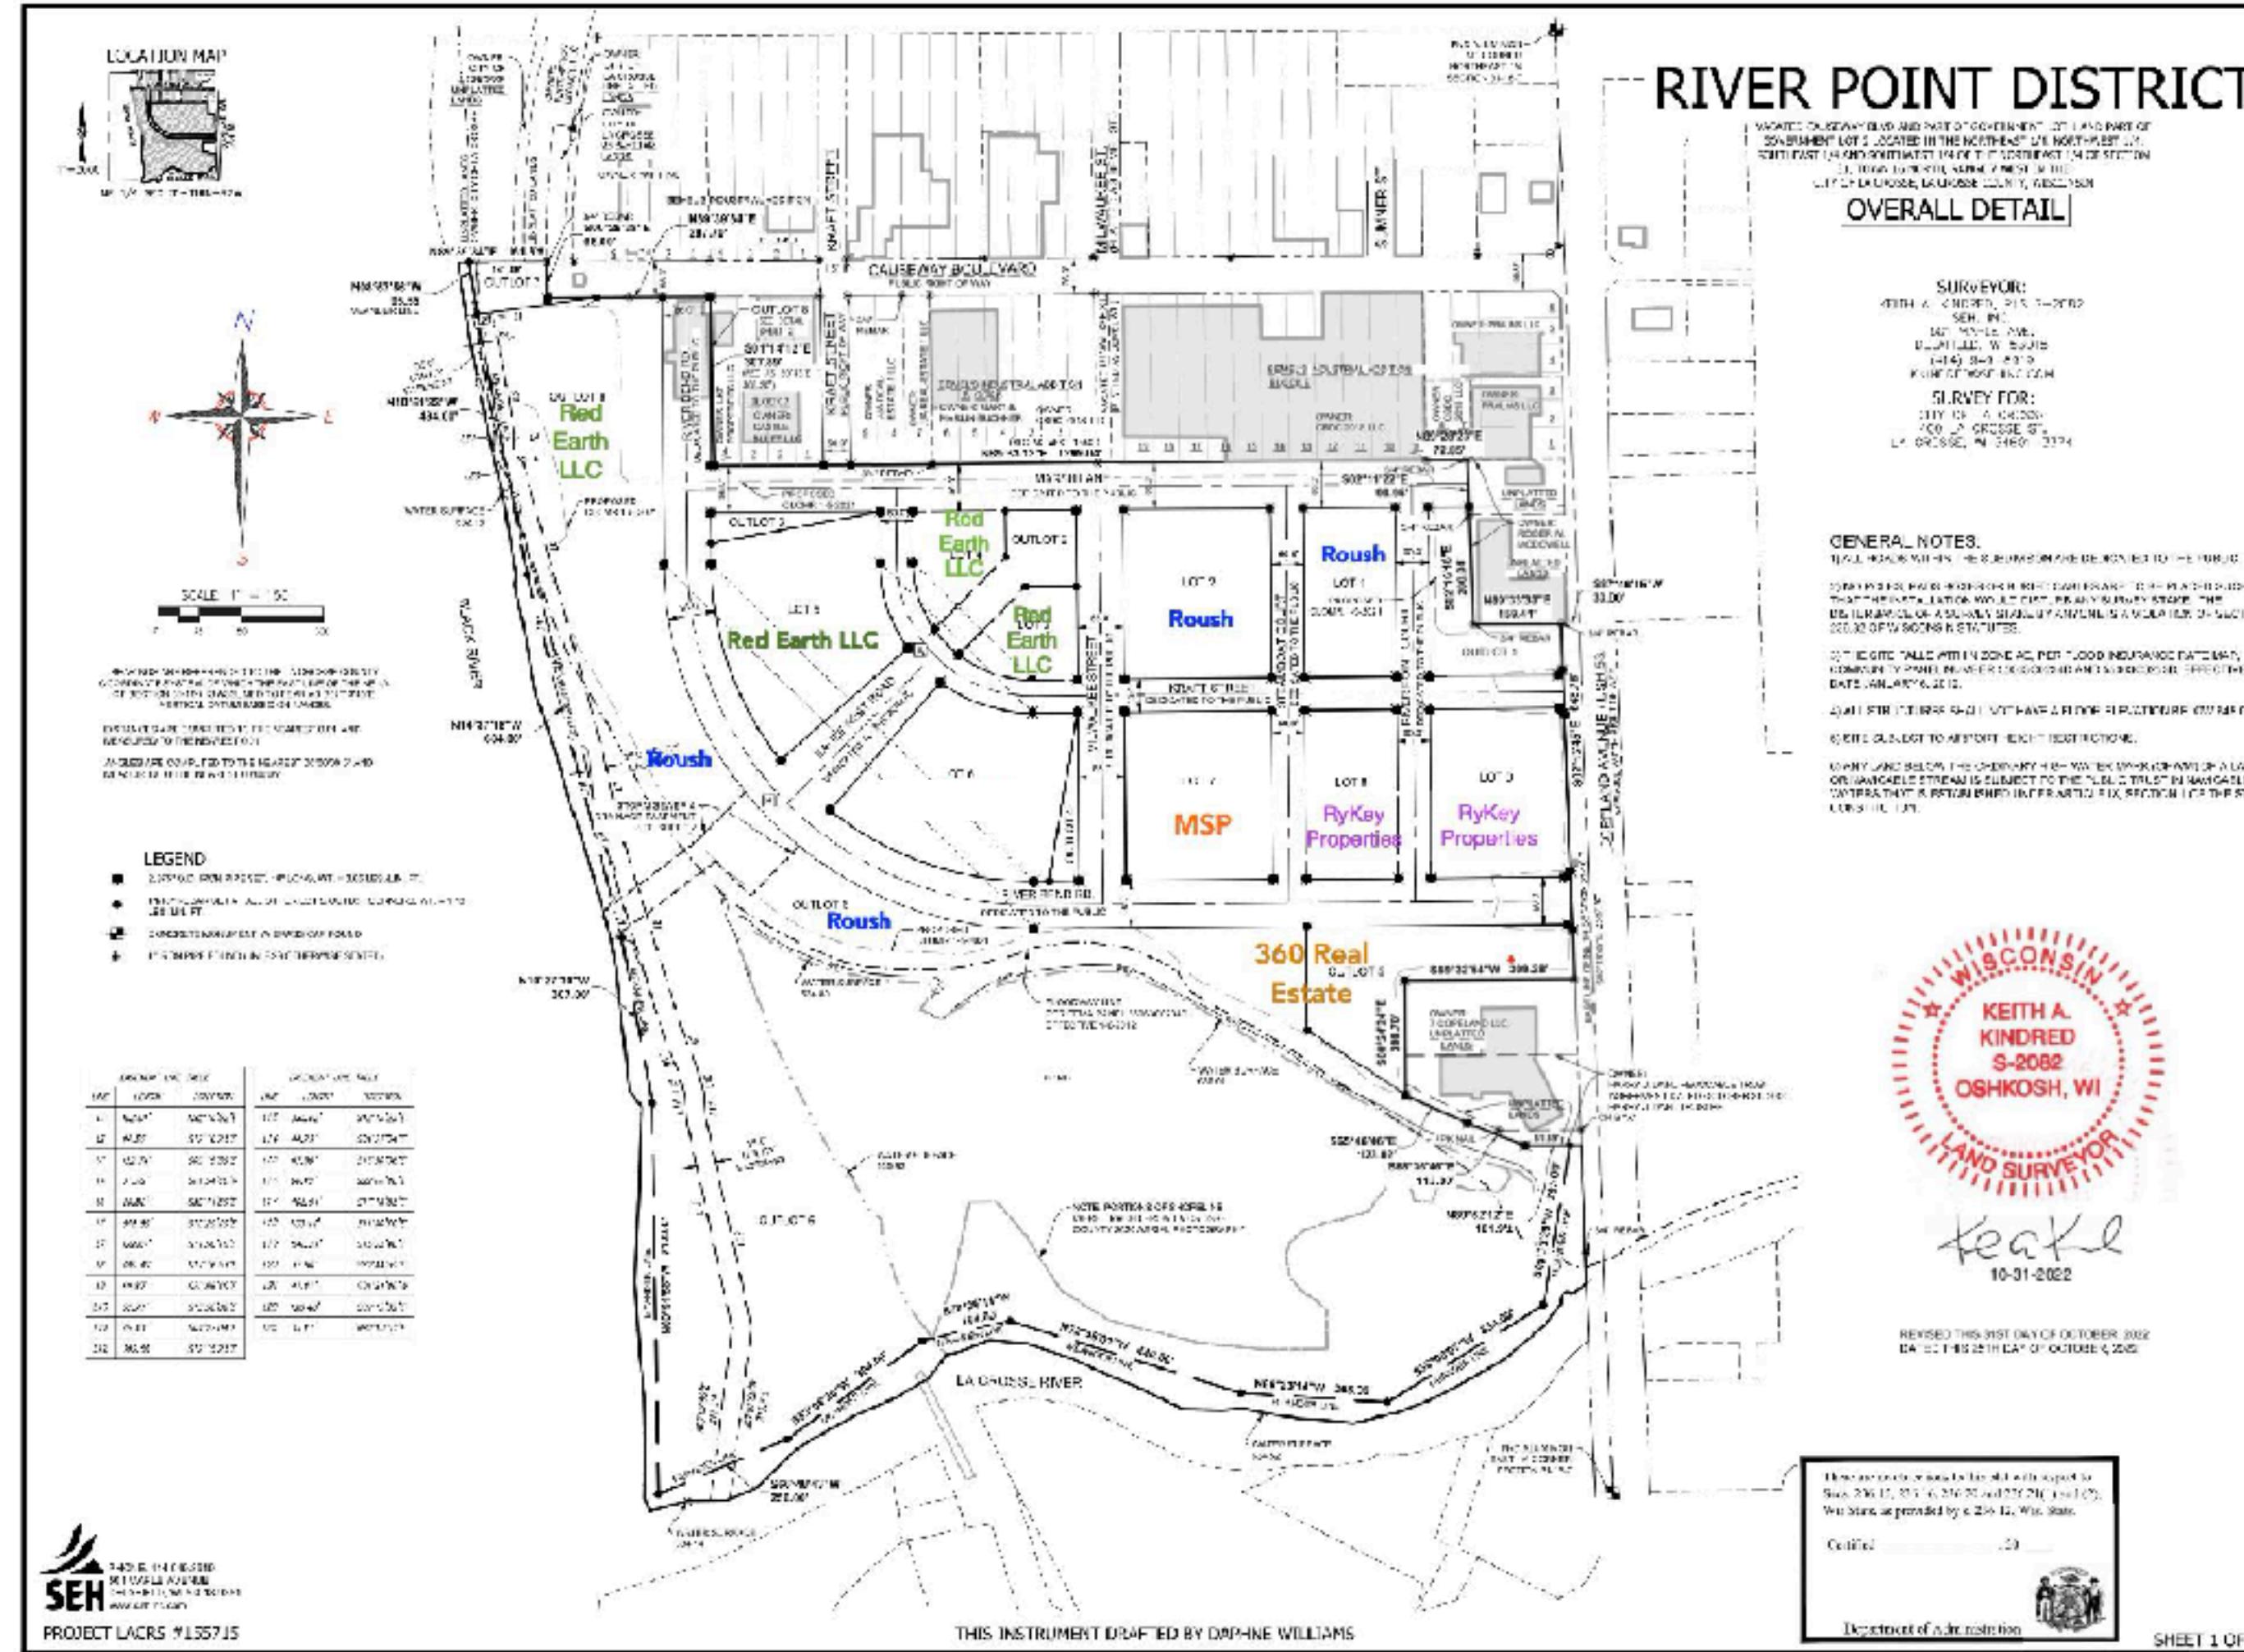

Meetings with both currently engaged investors and prospective investors are underway by JBG Planning LLC. Since some of these meetings involved RDA negotiations, communications on these meetings will need to be handled in closed session.

Public/media relations and communications updates

JBG Planning LLC is working with the City's PIO to address media inquiries and update media, which will include an immediate release section in each RDA report.

Project Metrics

Social, Environmental, Economic and Cultural Outcomes by Project

JBG Planning LLC has developed a tool to assist the RDA in it's decision making process for both public and private investment within the development. This tool provides guidance on quantifying project impacts using social, environmental, economic and cultural metrics.

See the Smartsheet tool.

Here are some examples of Metrics outlined by various developers proposing investment in River Point District:

1. How does the project relate to social investment in the City

The Merge River Point District development project meets several social sustainable performance indicators. The project will be a short walking distance of public parks, multiple greenspace areas, opportunities for water recreation, and will provide easy accessibility to the public recreation trail system. Throughout the River Point District bike lanes are included on the master plan which will serve as additional pathways to the above listed destinations. A designated tenant fitness area within the project which is currently a planned amenity. Lastly, the main level commercial space will allow for a multiple to socially beneficial businesses a place to operate.

2. How does the project achieve economic investment in the City

The Merge River Point District development project will increase the number of rentable units available to new and current residents of La Crosse. The project would have a direct positive effect on the jobs to housing ratio. Additionally, the ground floor commercial spaces will add locations for new or relocating businesses. The adding of jobs and housing will only benefit the future economic growth of La Crosse. Lastly, All Merge projects strive to provide high speed internet access to all tenants by partnering with local ISP providers.

3. How the project achieve environmental metrics in the City

All planned construction will meet and exceed minimum energy efficiency standards. Merge partners with 3rd pattern consultants to use Focus On Energy initiatives to ensure the highest level of building efficiencies. These upgrades in building insulation modeling, appliances, and mechanical systems all work cohesively to lower energy consumption and lower tenant utility costs. The development will incorporate mindful planning for stormwater runoff. Additional onsite detention and green spaces help alleviate the burden of added non-permeable surfaces. Adding new housing opportunities closer to residents' employment will allow for a reduction in greenhouse emissions.

4. Are there cultural offerings or metrics associated with the project?

The commercial space would be available to any and all potential businesses. These could include cultural focused companies that could provide additional services to the area.

Delay Termination. The RDA reserves the right to review proposals from other investors on parcel _____. Should a viable proposal be brought forward by another developer, the RDA may, in its discretion, inform the current option holder of the alternate proposal and at the time of the receipt of a complete alternate proposal, the RDA may require additional information and or guarantees from the current option holder based on the option holder's original proposal (RDA) illustrating the project is progressing to construction commencement as presented per the original presentation and subsequent updates by the developer to the RDA.

Should the option holder (developer), fail to provide an adequate guarantee of progress for the proposed development to the RDA, the RDA may terminate the option with a 30-day notice and return a prorated amount of the option fee to the developer.
