Dear Members of the City Council,

I am writing to express my strong support for Firehouse Commons, a transformative project that will preserve the historic Fire Station #2 at 626 Monitor Street while revitalizing La Crosse's Northside. Firehouse Commons will directly benefit our community by offering affordable spaces for local entrepreneurs, fostering economic growth, and driving further investment in our city.

Adding this property to the tax roll for the first time further highlights its value, generating new revenue while supporting small businesses in industries like woodworking, mechanics, and construction. Firehouse Commons is a community-focused development that reflects the needs and values of Northside La Crosse.

I urge you to prioritize this meaningful, locally-driven proposal over an out-of-town corporate office.

Thank you for your thoughtful consideration.

Sincerely,
John Neumann
Owner, Wrench & Roll
