Good evening,

I am writing to offer my support of agenda item #24-1323 to remove residential off-street parking requirements.

La Crosse desperately needs more housing to attract new employees, to retain students after graduation, and to allow long-time residents to age in place. But current costs and regulations make it far too difficult to build the necessary 200+ units/year required to meet demand.

The City Council can support its current and future residents by removing arbitrary regulations that turn useful space into underutilized surface lots. This is a logical next step in fighting our housing crisis.

Help increase the supply of housing, bring down housing prices for our cost-burdened residents, and support a thriving, growing La Crosse!

Thank you,  
Natalie Heneghan
