| Summary/Purpose |
| Update Chapter 115-Zoning of the Municipal Code. Project includes hiring a consultant with expertise in updating/writing municipal code, |
| hiring a marketing consultant to promote the project, and holding multiple public input meetings. The process includes review of current |
| plans to identify plan goals, objectives, and recommendations to ensure consistency, an intensive public outreach and participation |
| program that includes regular public meetings and web/social media interaction throughout the process, evaluation of community input, |
| draft related regulations; drafting a proposed zoning code, staff and public review, preparing a final draft for review and adoption by the |
| Common Council. Major objective in the Housing Element of the recently adopted Comprehensive Plan. An update to the municipal zoning |
| codes is typically the next step after updating and adopting a comprehensive plan to reflect current/desired development and land uses |
| practices that were identified. Additionally, La Crosse's current code was adopted in the 1980s and is largely out of date. Updating the code |
| will make administration of the code more efficient for staff and understandable for the public. |
