

**Neighborhood Revitalization Commission**  
 Proposed Elimination of Off-Street Minimum Parking Requirements  
 for Dwellings, Commercial Establishments, Non-profit Entities, and Service Providers  
 and Revision to Municipal Code  
 January 4, 2021

The 2020 La Crosse parking management report shows that, on a “typical” weekday, no place under study ever reached parking occupancy capacity, even at peak demand. The four areas studied, the densest in the city, had ample parking at all times.

Based on the final report of the “*Downtown Parking Study Update & Analysis of Expanded Areas*” completed by Rich & Associates Parking Consultants in July 2020, the NRC recommends eliminating all off-street minimum parking requirements from Municipal Code for dwellings, commercial or retail establishments, non-profit entities, or service providers. Because current Municipal Code clearly mandates off-street parking significantly greater than the need, the code unnecessarily allocates urban space for parking that would find a better and higher use as additional dwellings, businesses, or service providers. Eliminating minimum requirements for off-street parking would allow developers, businesses, and property owners to better allocate space for dwellings, commerce, or services rather than cars. They would be able to choose for themselves how much parking is needed to attract and accommodate residents, customers, clients, or other users thus allowing for increased numbers, density, availability, and affordability of housing, businesses and service providers.

#### Section 115-343-Residential uses
